

INTRODUCTION	3
Common Variable Types	3
Setting and Displaying ColdFusion Variables	4
Joining Text Variables.....	5
Computing Numeric Variables.....	6
VARIABLE FORMATTING	8
Controlling Data Display with Formatting Functions.....	8
➔ EXAMPLE 1 Variable Formatting	9
STRING FUNCTIONS.....	10
Controlling Text Display	10
Returning a Portion of a Text Variable.....	11
Replacing a Portion of a Text Variable	12
CONDITIONAL STATEMENTS	17
Comparison Operators.....	17
Nesting Conditional Statements	19
EMPTY VARIABLES VS. UNDEFINED VARIABLES	20
VALIDATION FUNCTIONS.....	20
The "IsDefined" Function.....	20
The "<cfparam>" Tag.....	20
Checking for a Valid Date.....	21
Checking for a Valid Number	22
Integer Validation Example	23
Checking For Empty Values	24
DATE, RAND AND LOOP FUNCTIONS	26
Current Date and Time	26
Choosing Random Numbers.....	26
Using the CF Loops	29
➔ EXAMPLE 2 Current Date and Time	31
➔ EXAMPLE 3 Clickable Banner Swapper.....	32
COLD FUSION EMAIL FORM.....	33
Email Submit Form	33
Display Success Message	36
DATABASE ESSENTIALS OVERVIEW	38
Database Terminology	38
WWW DATABASE INTRO EXAMPLES.....	40
Database Query Optimization	43
Form Variables vs. URL Variables	45
Set Up the Query	52
Display Query Results.....	54
What If No Records Are Found?.....	55
➔ EXAMPLE 4 Database Search Form	56
WWW. DATABASE VALIDATION	58
Display Query Results.....	62
Get a FedEx Record.....	76
Verify that the Variable Exists.....	76
Set up the CF Query.....	78
Display Query Results Header	79
Display Query Results.....	79
Check For No Records Found	80
➔ EXAMPLE 5A FedEx Database Get Record Form	80
➔ EXAMPLE 5B FedEx Database Get Record Now	81
Database Search Form	83
Check for Missing Variables	85
Is the "AirbillNum" a Positive Integer?.....	90
➔ EXAMPLE 6A FedEx Database Search Form.....	95
➔ EXAMPLE 6B FedEx Database Search Now.....	96
WWW DATABASE ADMINISTRATION.....	101
Add a FedEx Record	101
Validate All Variables.....	102
Check for Duplicate Records	104
Set up the Insert Query	104

Success Message	104
➔ EXAMPLE 7A FedEx Database Add Record Form.....	105
➔ EXAMPLE 7B FedEx Database Add Record Now.....	107
Delete a Record	109
Validate "airbillnum" Variable.....	110
Verify that Record Exists.....	111
Set up the Delete Query	111
Record Delete Success Message	111
Update a Record	112
Validate "airbillnum" Variable.....	112
Verify that Record Exists.....	112
Display Results Header	113
Display Form for Editing Record	113
Run Validation Tests Again	114
Set up the Update Query	114
Success Message	114
➔ EXAMPLE 8A FedEx Database Delete Record Form.....	115
➔ EXAMPLE 8B FedEx Database Delete Record Now.....	116
➔ EXAMPLE 9A FedEx Database Update Record Form.....	118
➔ EXAMPLE 9B FedEx Database Edit Record Form.....	119
